From the Principal

Education Week has seen many visitors at the school celebrating the wonderful Art On Anson artwork on display in the school hall. Visitors included parents, carers and family members, local school groups, community members and groups and residents of Calare Nursing Home.

The exhibition was again officially opened by local artist, Loretta Blake.

A big thank you and well done is again extended to Art Director, Cathy Huggett, who initiated Art on Anson. Thank you too to the other members of staff who assisted Cathy in the classrooms and in setting up the exhibition.

Gift cards which feature photos of this year’s and previous year’s Art On Anson artwork are available to purchase for $3.00 each.

Reviews meetings for students are continuing this week and we appreciate the advice and involvement of parents and carers. Families are encouraged to contact the school at any time regarding your child’s progress at school. For secondary students, families may wish to involve Ms Giovanna Cox (Transition Support Teacher) whose role it is to assist secondary students’ transition from school to employment and other post school options. Ms Cox can be contacted at the school through the office.

Anson Street School has established a professional relationship with CSU Physiotherapy Faculty with undergraduate students working at the school each week under the guidance of Physiotherapist, Mrs Jennie Kempson. The school and students benefit by having additional therapy support and of course, under the guidance of Mrs Kempson, the students experience the practical aspect of their chosen profession.

Next week Anson Street will have a number of community members visit the school to read books to the children. Ms Watson has been acquiring some wonderful new books for the library over recent months and this will encourage a love of reading, storytelling and writing with all students.

Enjoy your weekend,

Garry Brotherton

Pre2 rocket visits Anson Street

This week junior school students had a visit from an alien and his rocket from outer space. This rocket is circulating between local primary schools as part of the Pre2 community. The alien brought a story and craft activities for the students to participate in, which they thoroughly enjoyed.

A big thank you to Cathy Huggett for creating a beautiful scrapbook entry of our students, which will travel with the rocket.
When exiting the school at the top driveway vehicles **MUST** turn left. Turning right is not only dangerous it is also illegal and drivers may incur a penalty if noticed by police.

**Community Noticeboard**

**Understanding Bullying**
This seminar aims to assist parents to understand bullying and how best to support their children who may experience it. Topics include the impact of bullying on children and their families, skills and strategies for children and their parents.
